

NATIONAL aerolympics 2018

India is the fourth largest Civil Aviation market in the world having a potential of becoming third largest aviation market by 2020 after US and China. It recorded an air traffic of 131 million passengers in 2016, of which 100 million were domestic passengers. Civil Aviation in India has shown signs of quick development and is expected to be more and more popular. Studies indicate that by 2035, the Indian civil aviation sector will employ 0.8 to 1 million personnel directly and another 3 million indirectly.

The UDAN Scheme is a key component of the National Civil Aviation Policy (NCAP) which was released by the Ministry of Civil Aviation of India. UDAN scheme will connect so many small cities and routes, by operationalizing 100 regional airports by 2020 with a target of millions of passengers travelling comfortably.

THE AIM

1. Create awareness about India's Aviation Programme
2. Enable students to collect, collate, sift, arrange and present information
3. Motivate participants to join the aviation industry as Engineers, Scientists and Designers

Phase - I : THEME- REGIONAL TRANSPORT AIRCRAFT

Submit a Project Report on the above topic not exceeding 40 pages (Between Cover To Cover) on A-4 Size Paper (font size 11, aerial regular). The report may have material from any source but should not be direct copying and pasting from the internet.

The report can include photographs, diagrams, sketches and tables in addition to text. It should cover various aspects concerning developments in field such as history.
